May 2024

Covid Clinic

We would like to thank our PPG volunteers who helped towards the successful running of our spring covid booster clinic held on Thursday 25th April 2024.

Our next clinic will be held on Wednesday 15th May from 2.00pm—4.00pm. Those eligible are the over 75 years, patients in care homes and patients that are severely immunosuppressed. Call the surgery to book, alternatively we are accepting walk-ins.

New Phlebotomist Room

The surgery is pleased to inform patients that we have created a new phlebotomy room and will be employing another HCA to increase appointments.

Chronic Diseases Annual reviews

Can we please remind our patients that should you receive an invite for an annual review, it is important that you take this up so we can help to keep your health and medication under control.

Our next Staff training shutdown will be Wednesday 15th May 2024, with the exception of the covid clinic only.
